

Iran Air DC-10-40I:

Introduction:

This is the second version of Iranair Dc10 for Microsoft Flight Simulator 2004. You do not need to have the base package. Actually Iran air doesn't have any dc-10 but in flight simulator the world of airlines is different.

Installation:

Just unzip the content of the zip file into a temporary folder and copy "Iranair DC-10" folder into fs2004 aircraft folder.
